ARRIVAL OF GENERAL SICKLES .- A salute of artillery, fired on the Citadel Green yesterday morning, announced to our citizens the arrival of General Signals, the new district commander. BACON, TOFACCO, &c.-Messrs. LAUREY & ALEX-ANDER, No. 137 East Bay, offer to the hungry public bacon of different grades, suitable for family and plantation use. This is from the first hands, and is warranted to be a superior article. The smokers and chewists are not forgotten, and as they constitute a very important part of the community, a notice of Messrs. "I dreamt that I dwelt in Marble Halls."

We have no doubt our friends will have a very pleasant time. The drama "Lorenz and his Sister," the chief feature of the evening's entertainment, we learn, is a very interesting play, taxing the risible muscles to their utmost powers of cachinnation.

The trough was recently changed from Meeting to Wentworth streets in order to avoid the street railroad, and this removal. together with the decay caused by time, evidently opened the seams and a disagreeable puddle is the result. At present this is a small matter, as we are now living in the era of floods, but on the return of clear weather this puddle will become a decided puisance and should be promptly attended to. A few repairs will restore the trough to its former dignity, and though it can never be an ornament. yet it will be saved the amount of abuse that is now lavished upon it.

ATTEMPTED ESCAPE. - Seldom in the history of the Jail has it been called upon to contain such a nest of scoundrels as are now confined within its walls. Scarcely a week passes but some determined attempt to escape is made, and, though in nearly every instance they have been frustrated. yet they still continue, and a great desire is manifested by the prisoners to leave their quarters in a clandestine manner. The desperate character of ammoniacal fertilizer, free from mineral phosphates and some of these prisoners, and the frequency of their assaults upon the windows, induced the authoritually bar all egress.

In order to effect these changes it became necessary to remove the prisoners from the upper story of the tower, and it was left to the mechanics who were engaged in perfecting the changes. The searched. In the space behind the facing of the rates as reasonable as the stringency of the money mardoor were concealed several pieces of lumber and a knife; the latter being by far the most important of their tools. With this, although they had not been working more than one hour, they succeeded in cutting one of the bars nearly in half before they were discovered, besides loosening a number of the bricks under the window. The bar was cut very scientifically, and would have escaped all except the strictest scrutiny, as the marks were all removed, and the incision filled with dirty soap,

the exact color of the iron. By some means the prisoners have communicastand, and the character of the proprietors as ener- ted with each other, and have estallished a mystic brotherhood, with signs, &c., peculiar to the no praise, and merchants and planters who are order. In the light of this experience, South Carolina may seize the prize, as some compensation for the wrongs inflicted on her by fanaticism in the cause of a false humanity. In the change demanded, the upland planters or farmers will find grape culture a substitute for their chief staple, which requires but trifling labor, and vastly more profitable. This is no patent way to get rich, nor yet is it a temptation to speculate in illusions with a promise of fabulous results; but, as the "early bird catches the worm," so the first to enter this unbounded field of labor will be the first to participate with justice in the largest measure of whatever is valuable in the legitimate pursuits of life. SARATOGA "EXCELSIOR" SPRING WATER THE WATER OF THIS SPRING IS BELIEVED TO

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any other in the far-famed valley of Saratoga. Its virtues are such as have secured it the high encomiums of all who have used it, possessing, as it does, in an eminent degree, cathartic, diuretic, alterative and tonic qualities.

From SAMUEL HENRY DICKSON, M. D., Professor Practice of Physic, Jefferson Medical College, Philadelphia, formerly of Charleston, S. C.:

PHILADELPHIA, November 15, 1865.

I have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion or my invalid lize to use the different waters of the several fountains which boil up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsior Water is as well adapted as any other among them, if not more \$\varepsilon\$, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic acid, lively and sparkling.

*** I can heartly and conscientiously recommend it to all who need a gentle cathartic and diuretic.
